

# Hospital Lane Dental and Implant Clinic

## Coronavirus (COVID-19) notice

We are pleased to advise that the Clinic has now reopened. Our environment and Standard Operating Procedures have been upgraded to provide safe and effective care for our patients and Dental Care Professionals. You will notice significant changes in how we need to work with our patients. The use of additional PPE and additional sanitation procedures will mean our capacity to see patients will be reduced.

We are expecting an initial surge in demand so if you are unable to get through on our mainline number, please leave a voicemail message and a member of the team will get back to you as soon as possible. In the event you have an urgent need of treatment and telephone lines are busy, please send an email to [reception@hospitallane.com](mailto:reception@hospitallane.com) with URGENT in the subject box.

Please be reassured we have undertaken an extensive training programme and prepared the Clinic in line with the Chief Dental Officer's guidance for the transitioning process for the resumption of full dental provision.

If you have a dental emergency out of hours, please call Denteline on 01634 890300.
